

# THE EVOLUTION OF ARMOR

## FOR THE EVOLVING BATTLEFIELD

Armored vehicles have been an integral part of warfare and troop protection since World War II.

Over time, armor technology has evolved to neutralize more sophisticated and emerging threats.

In the 21st century, the tactics of warfare require a more sophisticated and strategic approach to armor. AMTANK Armor has risen to the challenge as your provider of armor material solutions.

Our lightweight composite armor provides enhanced protection, multi-hit capabilities, and is BDAR capable for combat, tactical and support vehicles.
